		PR stated that the Chairman's main aim this year had been to accomplish the purchase of the Coal yard boathouse (now called Clive's).	
	Charly Curtis	CC told the members of the deaths this year of people dear to the club:	
		Ian Curry originally from Hatfield College.	

		Peter Stavers, a member in the 1960s and again more recently, also an umpire.
		r eter etavers, a member in the 1900s and again more recently, also an unpile.
		Claire Staines, a daytime rower who had been a member for a number of years since the L2R course she had done.
		Dianne Stevens, Mickey's wife. Charly reminded the members of the credit due to partners who supported their husbands/wives in their sporting endeavours.
1.	Apologies	Gene Dobson, Kate Sowden.
2.	Minutes of AGM July 2022	Minutes were approved with two corrections. Richard Mortimer asked that Phil Metcalfe be taken of the list of Vice Presidents since he is deceased.
		Nick Baird is Nick not Mick.
	SGM Mark Bell	
		MB explained the following to the members:
		The club rules needed to be aligned.
		Membership categories needs to be taken out of the rules and put into the bye laws.
		The fees are in the club articles,
		Membership subs are decided by the directors, this meeting is an opportunity for the members to give feedback. The directors will listen then make a decision. The directors need to protect the financial viability of the club.
		PR asked if there were any questions.
		Shirley Robinson asked if there was proxy voting, MB: "yes this is one of the changes that have been made".
3.	Secretary's Report	GM (Acting Secretary) talked through the Secretary's report, which may be found at the end of these minutes.

Durham Amateur Rowing Club (Est 1860) AGM 2023 Secretary Report

Good evening and welcome to our 2023 AGM. I'm Gabrielle Moore, I've been Assistant Secretary for the last 2 years and have been Acting Secretary for the last few months after Hannah stepped down.

The executive committee has met every 2 months as is usual for our club and the management committee has met roughly every 6 weeks.

The management committee consists of the Club Manager, Mark Bell and Assistant Manager, John McCudden, plus the Chairman, Paul Rutter, Treasurer (a vacant position this year although Linda Forwood has recently been helping out), the Secretary, Hannah Grace Gravvatt, until the birth of her daughter earlier this year, volunteer John Appleby and myself as Assistant Secretary.

The Exec. Committee has all the positions you will be voting on this evening. The club is run by volunteers so please think about how you can help in any way.

I have spoken with Hannah and she would like me to thank on her behalf all members of the exec. for their support and Mark, John and all of the café staff for their hard work.

Since the last AGM the management committee have secured the purchase of Clive's boathouse, a huge step forward and a valuable investment for the club thanks mostly to Paul Rutter, Mark Bell and John McCudden.

The membership has decreased over the last few years so it would be great if we could pull together to think of ways to grow the club, have bigger, friendly squads, think of ways of integrating the excited fresh faces (new addicts!) who come off the Learn to Row and to make our club stronger going forwards.

I would like to re-iterate Hannah's words in thanking Mark, John (who answers my daft questions at all times without complaining !) and the café staff for such great work.

The following members are standing down and I'm sure you will join me in thanking them for their support and hard work for the club.

Paul Rutter who did so much grunt work getting the boat house purchase over the line.

Hannah for all of her hard work as secretary.

George for making sure all of our boats are river worthy,

Bex for ladies VC,

Tim as coaching coordinator and last but by no means least ... or should I say most of all, Barry Hudson who has served the club as Chairman for 4 years, Secretary for 25 years, Treasurer for 3 years and Captain for 4 years. That's a staggering 36 years on the Exec in a major role. As they say, you get less time for murder.

Please join me in a round of applause for these people plus all of those who have served on the exec this year. Gabrielle Moore

## Durham Amateur Rowing Club Business and Finance Report presented by Mark Bell, General Manager

Durham Amateur Rowing Club Business and Finance Report for period 1st April 2022 to 31st March 2023 presented to the AGM 13 th July 202 by Mark Bell, General Manager. The 12 Months to the 31st March 2023 has seen the first full year of trading since both Covid restrictions ended and since the 1860 coffee shop was established. This has seen a significant change to the way the club is managed, financed and ran on a day to day basis. Prior to COVID and the establishment of 1860, the club traded 4 nights per week and ran mainly at a loss subsidised by the functions held on a weekend. The after effects of COVID have lingered and the public habits have taken a long time to return to anything approaching normal and only recently have we seen functions returning in the same way as previous. Whilst function numbers and associated revenue are now returning, the first full year of trading of 1860 and in particular the coffee shop have continued to show strong growth with sales increasing from £154,109 in the previous year to £216,770, an increase of 41%! The extra business has been sustained by our existing staff numbers and there is still capacity to grow the business further without he need to increase the number of staff significantly. Of course there has continued to be large increases in the National Living Wage which is putting pressure on all businesses. The coffee shop is open 7 days per week and we are now at the stage where the bar is open on evenings 3 nights per week plus additional nights for functions The larger events have continued, once again hosting Durham University Fashion Shows in a grand marguee situated in the car park. Whilst this does inevitably cause some disruption to members the financial return is significant over a relatively short period of time. We have also continued to develop links with Adventure Access who provide other water sports activities. This partnership helps co-ornate river usage and hopefully despite some teething issues the impact on members is not now that significant. We have recently agreed a £4500 contract with them to provide catering through 1860 for a project they are delivering to NCS this summer. This contract has also seen a significant financial return for The Three River Serpents, another one of the clubs close partners. The financial returns on these new ventures have been rewarding and as we move forward with more capacity delivered for little extra costs we should see the profitability increase. The other major item of business for the previous year was the purchase of the neighboring land and building from Browns Coalyard Limited. This presented a once in a lifetime opportunity for the club and it consumed a vast amount of resources, both time and money in making it a reality. This did inevitably consume a lot of the clubs surplus revenue for the year as well as the restricted reserves we had been holding from the legacy provided by Kim Metcalfe. Whilst no long term plans for the site have been discussed as yet, it is already generating an income which is covering roughly 75% of the loan costs involved with the purchase. As with every aspect of life at the moment, the club has seen costs soar during the last year and whilst we have benefited from signing a long electricity contract, we have been hit heavily with gas increases which combined with NLW increases and general

inflation have had a significant increase on the clubs running costs. Moving on to the independently examined accounts made up to the 31st March 2023. There are 2 sets of accounts to be circulated, those of the trading subsidiary Durham Amateur Rowing Club Limited and those of the newly created charity Durham Amateur Rowing Club 1860 Limited which commenced trading on 1st April 2022. Making comparisons on the accounts is difficult due to the transfer of assets and activities from the former non incorporated club to the registered company and charity. I will however try and pick out noticeable items and provide an overview of our position. Looking first at the Trading subsidiary Accounts, the final page (10) shows the profit and loss account for the period. Turnover of 1860 which incorporates both bar and coffee shop as well as catering sales for the year was £216.750 less cost of sales £92679 yielding a profit of £124,053 or a margin of 58%, before other direct costs and overheads are applied. Durham city regatta income was paid into the trading subsidiary by British Rowing whereas the costs were all paid by the charity, regatta income will no longer appear in these accounts. Caravan Sales were £26,558 an increase of 56% on the previous year, this was achieved due to a full year without COVID and using an online booking system which has greatly reduced the staff time involved. Cost of sales includes purchases of £52,479 of which over £40k is in relation to the hire of marguees for the large events. This includes £21k towards the marguee for 2023 which was invoiced prior to 31st March but the income received after 1st April. Apportionment of expenditure is difficult, particular with shared costs such as utilities and wages and we have started looking at some apportionment rules t apply going forward. Subject to this though, additional costs of £54,908 were incurred as overheads. In addition to this the charity paid some wage costs in the year as existing staff were mid way though funded apprenticeship courses. Overall on the face of it the trading subsidiary made a profit for the year of £71,778 compared to £33,534 and made donations in the year to the parent company of £74,000 meaning no liability for corporation tax in the year to 31st March 2023. The balance of shareholders funds held at 31st March 2022 was £10,570. Looking now at the accounts of Durham Amateur Rowing Club 1960 Limited. Looking at page 11 first Membership for the year was £83,110 up from £73,166 the previous year. Private racking and storage refers to income from the new building, mainly college boats and privately racked quads and doubles. Trailerage shows a profit of £2942 but there were also associated vehicle costs paid by the subsidiary of £1733. Learn to row income remains significantly below pre covid levels and needs to be a priority to address going forward. Detailed under other income are donations of £72,345 which are largely the cash reserves of the old unincorporated club. Government grants of £10,700 are funds towards hiring apprentices for 1860. Income from investment of £74,000 is the donation from the trading subsidiary. Utilities come in at £19,721 which when you add also the costs contributed by the trading subsidiary so an increase for the year of £16607 on the previous year. Wages of £52,587 less the above government grant refer

to the apprentices working for 1860. These will transfer to the other company this year. There are significant costs of £16,405 under Finance costs in relation to the purchase of the new land in addition to £4120 of professional fees. Finally at the bottom of Page 12 detailed is an Exception item donation of £1,373,100 being the book value of the old clubs assets on 31st March 2022. The surplus for the year removing the exceptional item was therefore £30,882 after the £74,000 contribution from the subsidiary. Looking at the Balance Sheet on page 4, the total assets less current liabilities are £1,808,523 after the purchase of the new land and buildings less long term liabilities of £400,800 being the loan for that purchases. The reserved therefore as at the 31st March 2023 therefore stood at £1,407,723 Final Sheet is a draft budget This is to be agreed with the new treasurer and is seen very much as a working document. Changes have been made to reflect the apportionment of costs going forward so as to produce a truer reflection of the expected position of each company. The underlying final position though is an expected group surplus of £4417 after paying costs in relation to borrowing. Thank you to everyone, Staff, Committee and members for their continued support.
